

ENVIRONMENTAL POLICY STATEMENT

Date: January 2019

Environmental Management to BS/EN/ISO 14001:2015

TGM Environmental is a provider of the collection, processing and storage of Recovered Paper & Plastic and associated products and is committed to the protection and conservation of the environment. The TGM Group management are committed to ensuring that environmental issues are carefully considered when making any decisions within the business. The Company will operate an Environmental Management System that will seek to accomplish the following objectives:

- To comply with all applicable environmental legislation, regulations and guidelines as stipulated by regulatory authorities and industry bodies.
- To continuously monitor and improve operational efficiency and energy efficiency and in turn managing our carbon footprint and endeavouring to achieve zero waste to landfill.
- To conduct all activities in an environmentally responsible manner thereby minimising the effect on the environment and the potential for pollution.
- Establish and periodically review the identified environmental objectives and feasible targets relating to our operations.
- To work with and to access the environmental performance of our customers and suppliers ensuring that they adhere to sound environmental practices.

Every employee of the TGM Environmental Group is responsible for adhering to this Policy and the collective environmental objectives contained herein.

Signed

Mr G Coombs
Managing Director
TGM Environmental Ltd
